ABOUT

7TH NATIONAL STUDENT ACADEMIC CONFERENCE 2024

India@2047 : Role and Vision of the Youth

As India approaches its 2047 centenary of independence, it's crucial to recognize the pivotal role and vision of its youth in shaping the nation's path. Indian youth are a vibrant force, overflowing with passion, creativity, and a strong desire to influence their country's future. The progress and development of India heavily rely on the steadfast commitment and immense potential of its youth. Armed with knowledge, fueled by ambition, and fueled by innovation, today's youth epitomize the essence of change and growth. Their vision goes beyond individual aspirations for success; it embodies a collective dream of a lively, inclusive, and prosperous India. With a deep sense of social responsibility and a belief in collaboration, youth serve as agents for positive transformation across all sectors of society.

From advocating for social justice and environmental sustainability to spearheading technological advancements and economic prosperity, Indian youth are at the forefront of addressing the nation's most pressing challenges. Furthermore, their vision extends beyond national borders, embracing global citizenship and unity. In an increasingly interconnected world, Indian youth are establishing partnerships, fostering connections, and contributing to global efforts for peace, development, and cooperation. As we come together to examine the role and vision of youth in shaping India's future, let's harness their energy, ideas, and aspirations to construct a future that is fair, inclusive, and sustainable. Together, let's embark on this journey towards realizing the aspirations of a nation where every young person has the opportunity to thrive and make meaningful contributions to society.

GUIDELINES

Please follow the submission guidelines of Abstracts and full paper as listed below:

- ❖ Last date of submission of abstracts, keywords: 17th April 2024
- ❖ On top left corner of the abstract give the following details:
